A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on February 27, 2004 has been entered.

The following changes to the drawings are required:

Replacement sheets for Figures 1b, 3 and 7h are required because the replacement sheets filed February 27, 2004 for these three drawings are not accurately reproducible for the reasons noted below. (With the exception of Figures 1b, 3 and 7h, the drawings filed February 27, 2004 are accepted by the examiner.)

Figure 1b contains portions which are too dark to be accurately reproduced. For example, some lines and letters which overlap with, or lie inside of, the CIE diagram are not clearly discernable.

In Figure 3, the darker portions of the background make the overlying text difficult to read.

In Figure 7h, portions of the chemical formula are not clear.
